UNIPART

Unipart parts and accessories are tested and approved by B L Cars
For full details of the Unipart range refer to the Unipart catalogue.

INTRODUCTION

INDEXES

The catalogue features a series of indexes for easy reference.

1. Pictorial Index — This index consists of small illustrations, each highlighting a group of components. Against each group the commencing and finishing page numbers on which the items appear are given.
2. Alphabetical Index — This index lists all the major items of the vehicle in alphabetical sequence and provides the page number on which the item can be found.
3. Numerical Index — This index which is at the end of the catalogue lists all serviced parts in numeric sequence, together with a full description of the part and the first page number on which the item appears.

LAYOUT

The catalogue illustrates all parts, assemblies and repair kits available for the vehicle and quotes the part number directly on the illustration page. The quantity for any part number is always one off unless a higher quantity is shown in brackets against the part number. Where a component is not part numbered individually it is not available as a separate item. In such cases the assembly or kit must be fitted to the vehicle. Part numbers quoted on illustrations are common to all models covered by the publication unless otherwise stated against the heading, the part number, or in the section at the bottom of the illustration. Where two part numbers are shown against an item, the second number being in brackets, this indicates a supersession exists and the number in brackets is the earlier number.

Users should familiarize themselves with the various standard symbols and abbreviations that are used throughout the catalogue, together with the country abbreviations that are used to denote parts fitted to a specific market.

ORDERING

When ordering replacement parts it is essential that the following points are noted.

1. Always quote the complete part number including all prefix and suffix letters or numbers.
2. Always quote the quantity required, noting that the quantities shown are those used in the application actually illustrated. Sometimes only minimum packaged quantities are available and these may well contain more parts than are actually required for a single job. For details of packaged quantities refer to the parts price list.
3. Where a change point is shown for a vehicle, engine, gearbox or axle check carefully to ensure that the correct part number is ordered.
4. The listing or illustrating of an item does not guarantee it's availability.

The policy of BL Cars Limited is one of continued development and improvement. Consequently they reserve the right to change specifications without prior notice.

EINLEITUNG

INDEX-VERZEICHNISSE

In diesem Katalog sind eine Reihe von Index-Verzeichnissen zur leichten Bezugnahme vorgesehen.

1. **Bildindex:** Dieser Bildindex besteht aus einer Reihe von kleinen Abbildungen, die sich jeweils auf eine gewisse Bauteilgruppe beziehen. Zu jeder Gruppe gehören die Anfangs- und Endseitennummern, auf der die abgebildeten Teile zu finden sind.
2. **Alphabetischer Index:** Auf diesem Index erscheinen alle Hauptteile des Fahrzeugs in alphabetischer Reihenfolge und die Seitenzahl, auf der diese Bauteile zu finden sind.
3. **Numerischer Index:** Dieser Index am Ende der Kataloglisten zeigt alle Serviceteile in numerischer Reihenfolge und eine ausführliche Beschreibung des Bauteils, weiterhin die erste Seitenzahl, auf der es erscheint.

AUSLEGUNG

Der Katalog zeigt alle Teile, Einheiten und Reparatursätze, die für das Fahrzeug erhältlich sind, und gibt die Teilnummer direkt auf der Abbildungsseite an. Die Anzahl für alle Teilnummern ist immer ein Stück, wenn keine höhere Menge in Klammern bei der Teilnummer angegeben ist. Wenn ein Bauteil keine selbständige Teilnummer zeigt, kann es nicht separat geliefert werden. In solchen Fällen muß die ganze Einheit oder der gesamte Satz im Fahrzeug vorgesehen werden. Auf Abbildungen angegebene Teilnummern sind für alle Modelle gültig, auf die sich diese Veröffentlichung bezieht, wenn es Überschrift, Teilnummer oder Abschnitt unten auf der Abbildung nicht anders angeben. Wenn ein Teil mit zwei Teilnummern versehen ist (zweite Zahl in Klammern), so weist diese Tatsache darauf hin, daß ein neueres Teilmodell existiert. Die Zahl in Klammern stellt die frühere Teilnummer dar.

Leser dieses Katalogs lernen am besten die verschiedenen Standardsymbole und Abkürzungen, die überall im Katalog verwendet werden, kennen. Außerdem sind die Länderabkürzungen nützlich, die für Teile eines bestimmten Marktes gelten.

BESTELLUNG

Bei der Bestellung von Ersatzteilen ist es erforderlich, die folgenden Punkte zu beachten:

1. Immer komplette Teilnummer mit Präfix- und Suffix-Buchstaben oder -Nummern angeben.
2. Niemals Mengenangabe vergessen. Es werden immer die Mengen abgebildet, die in der gezeigten Anwendung benötigt werden. Manchmal sind nur Mindestmengen erhältlich. Dabei kann es sich um zahlenmäßig größere Teile handeln, als sie für eine Arbeit erforderlich sind. Einzelheiten über abgepackte Mengen sind auf der Einzelteilpreisliste zu finden.
3. Wenn für ein Fahrzeug, einen Motor, ein Getriebe oder eine Achse ein Änderungspunkt gezeigt wird, sorgfältig überprüfen, daß das korrekte Einzelteil mit der richtigen Nummer bestellt wird.
4. Eine Abbildung oder Aufführung eines bestimmten Bauteils ist keine Garantie für die Lieferfähigkeit des Artikels.

BL Cars Limited ist ständig damit beschäftigt, seine Produkte zu verbessern und weiterzuentwickeln. Änderungen ohne vorherige Mitteilung sind daher vorbehalten.

INTRODUCTION

REPERTOIRES

Le catalogue comporte un certain nombre de répertoires en facilitant la consultation.

1. Répertoire illustré — Il consiste en de petites illustrations correspondant chacune à un groupe de pièces. Face au groupe on trouve les numéros des première et dernière page sur lesquelles figurent les pièces.
2. Répertoire alphabétique — Il donne des nomenclatures de toutes les pièces principales du véhicule, par ordre alphabétique, et le numéro de la page à laquelle on trouvera la pièce.
3. Répertoire numérique — Il donne en fin des nomenclatures du catalogue toutes les pièces de rechange par ordre numérique, ainsi que la désignation complète de la pièce et le numéro de la première page à laquelle elle se trouve.

DISPOSITION

Le catalogue représente toutes les pièces, ensembles ou pochettes de réparation qui se font pour le véhicule, et il donne directement le numéro de la pièce à la page des illustrations. La quantité pour tout numéro de pièce est toujours une, à moins qu'une autre quantité ne soit indiquée en parenthèses à côté du numéro de pièce. Si une pièce n'a pas son propre numéro c'est qu'elle ne se fait pas séparément. Dans ce cas il faut monter sur le véhicule l'ensemble ou kit. Les numéros de pièce indiqués à toutes les illustrations sont communs à tous les modèles concernés par la publication sauf indication contraire à côté de l'entête, du numéro de la pièce, ou à la partie au bas de l'illustration. Lorsqu'il y a deux numéros de pièce à côté d'une pièce, le deuxième étant entre parenthèses, cela veut dire que la pièce dont le numéro est entre parenthèses est une pièce antérieure, qui a été remplacée.

Il est demandé aux utilisateurs du catalogue de se familiariser avec les divers symboles et abréviations utilisés tout au long du catalogue, et aussi avec les abréviations des pays, pour les pièces destinées à un marché particulier.

COMMANDES

Pour commander des pièces de rechange il est essentiel de se conformer aux règles suivantes:

1. Toujours indiquer le numéro de la pièce tout entier, y compris toutes lettres ou chiffres, préfixes ou suffixes.
2. Toujours indiquer la quantité requise, ne pas oublier que les quantités indiquées sont celles requises pour l'utilisation qui est illustrée. Parfois les pièces sont conditionnées par quantités minimales et il est possible dans ce cas qu'il y ait plus de pièces que nécessaire pour une intervention particulière. On trouvera au barème des renseignements sur les pièces vendues par quantité.
3. Lorsqu'un changement est indiqué pour un véhicule, un moteur, une boîte de vitesses ou un essieu, vérifier soigneusement qu'on commande la pièce portant le bon numéro.
4. Le fait qu'une pièce figure à la nomenclature ne veut pas forcément dire qu'elle soit disponible.

BL Cars Limited a pour principe de procéder sans cesse à des développements et perfectionnements, et se réserve donc le droit d'apporter des changements aux caractéristiques sans préavis.

EXTERIOR PAINT AND IRIM CODE PROCEDURE

The following coding system has been devised to cover the basic colours and their varying shades.

(a) Basic Colours.

There are nine Basic Colours, their numbers are:

- | | | | | |
|----------|-----------|----------|-----------|----------|
| 1. Black | 3. Brown | 5. Green | 7. Purple | 9. White |
| 2. Red | 4. Yellow | 6. Blue | 8. Grey | |

(b) Shades of Body Colour

To cover Shades of the above Colours a second figure commencing at '1' is used as a prefix to the above numbers as shown below.

From October 1979 Body Colour Paint Codes are shown on the Vehicle Identification Number Plate using the appropriate three-letter group code below.

Basic Colour					
Black	11 Black	PAA Black	RAC Black/White		
Red	72 Pimento	82 Carmine	CAA Carmine	CAD Flamenco	CAE Vermilion
Brown	83 Maple	93 Russet Brown	AAE Russet		
Yellow	64 Mimosa	74 Beige	84 Topaz	94 Inca Yellow	FAB Inca
Green	75 British Racing Green (1975)	85 Java	HAB Java	HAE Brooklands Green	
Blue	126 French Blue	136 Delft	146 Tahiti	JAE Tahiti	JAG Pageant
Purple					
Grey					
White	19 White	NAB White	NAF Leyland White	RAC White/Black	

(c) Trim Materials

Prefix Letters added to the colour-code indicate the main trim material

Leathercloth-No prefix letter, Leather - Prefix letter 'H', Cloth - Prefix letter 'C'. When ordering Trim details which have a three letter colour - defining suffix it is only necessary to quote the first and third letters of that suffix - e.g. WKC3689RC (Black/White).

(d) Recording

The paint, trim colours and materials used are recorded in the spaces provided on the Commission No. Plate or Vehicle Identification No. Plate.

DIFICATION DE PEINTURE EXTERIEURE ET DE GARNITURE

Le système de codification suivant a été mis au point pour couvrir les couleurs de base et leurs diverses nuances.

a) Couleurs de base.

Il y a neuf couleurs de base, portant les numéros suivants :

- | | | | | |
|----------|-----------|---------|----------|----------|
| 1. Noir | 3. Marron | 5. Vert | 7. Mauve | 9. Blanc |
| 2. Rouge | 4. Jaune | 6. Bleu | 8. Gris | |

b) Nuances des couleurs de carrosserie

Pour couvrir les nuances des couleurs ci-dessus, un deuxième chiffre commençant à '1' est utilisé en préfixe des numéros ci-dessus comme indiqué ci-dessous.

A partir d'Octobre 1979 les Codes de peinture de carrosserie sont indiqués sur la Plaque de Numéro d'Identification du Véhicule à l'aide du code à trois lettres ci-dessous.

Basic
Colour

Black	11 Black	PAA Black	RAC Black/ White		
Red	72 Pimento	82 Carmine	CAA Carmine		CAE Vermilion
Brown	83 Maple	93 Russet Brown	AAE Russet		
Yellow	64 Mimosa	74 Beige	84 Topaz	94 Inca Yellow	FAB Inca
Green	75 British Racing Green (1975)	85 Java	HAB Java	HAE Brooklands Green	
Blue	126 French Blue	136 Delft	146 Tahiti	JAE Tahiti	JAG Pageant
Purple					
Grey					
White	19 White	NAB White	NAF Leyland/ Black	RAC White/ Black	

(c) Matériaux de garniture

Les lettres de préfixe ajoutées au code couleur indiquent le matériau de garniture principal. Simili-cuir, pas de lettre de préfixe. Cuir - lettre de préfixe 'H', Tissu - lettre de préfixe 'C'. Pour la commande de pièces de garniture ayant un suffixe de définition de couleur à trois lettres, il suffit d'indiquer seulement la première et la troisième lettres de ce suffixe - par exemple WKC3689RC (Noir/Blanc).

(d) Inscription

Les couleurs de peinture et de garniture et le matériau utilisés sont inscrits dans les cases prévues à cet effet sur la plaque de No. de Commission ou sur la plaque de No. d'Identification de Véhicule.

CODE FÜR KAROSSERIE- UND INNENAUSSTATTUNGSFARBEN

Folgendes Codesystem für Hauptfarben und ihre Varianten wird angewandt:

(a) Hauptfarben

Die neun Hauptfarben und ihre Nummern lauten wie folgt:

- | | | | | |
|------------|----------|---------|--------------|---------|
| 1. schwarz | 3. braun | 5. grün | 7. purpurrot | 9. weiß |
| 2. rot | 4. gelb | 6. blau | 8. grau | |

(b) Karosserie-Farbtöne

Für obige Farbtöne wird eine zweite Zahl angegeben, die mit '1' beginnt und als Vorzahl für obige Zahlen - wie nachstehend erläutert - verwendet wird:

Ab Oktober 1979 werden Karosserie-Farbcode auf dem Typschild angegeben, einschließlich des dreibuchstabigen Gruppencodes.

Basic Colour					
Black	11 Black	PAA Black	RAC Black/White		
Red	72 Pimento	82 Carmine	CAA Carmine	CAD Flamenco	CAE Vermillion
Brown	83 Maple	93 Russet Brown	AAE Russet		
Yellow	64 Mimosa	74 Beige	84 Topaz	94 Inca Yellow	FAB Inca
Green	75 British Racing Green (1975)	85 Java	HAB Java	HAE Brooklands Green	
Blue	125 French Blue	136 Delft	146 Tahiti	JAE Tahiti	JAG Pageant
Purple					
Grey					
White	19 White	NAB White	NAF Leyland White	RAC White/Black	

(c) Innenausstattungsmaterial

Ein Vorbuchstabe vor dem Farbcode bezeichnet das Hauptmaterial der Innenausstattung an: Kunstleder - kein Vorbuchstabe, Leder - Vorbuchstabe "H", Stoff - Vorbuchstabe "C".

Bei der Angabe von Einzelheiten der Innenausstattung mit einem dreibuchstabigen Farbcode (Nachbuchstaben) ist es nur erforderlich, den ersten und letzten Buchstaben des Codes anzugeben - z.B. WKC3689RC (schwarz/weiß).

(d) Kennzeichnung

Die Farben der Lackierung und der Innenausstattung sowie des verwendeten Materials sind auf der dafür vorgesehenen Stelle auf dem Kommissionsnummernschild bzw. dem Fahrzeugtypschild angegeben.

GROUP A

SYMBOLS

	Right Hand Steering
	Left Hand Steering
	Right Hand
	Left Hand
	Safety Item
	Exhaust Emission
	Not Exhaust Emission

 Denotes parts fitted up to serial number(s) shown below.

 Indicates parts fitted from a serial number(s) up to another serial number(s).

 Denotes parts fitted from a serial number(s) onwards.

 Refer to note at foot of page.

 Refers to associated page or indicates part or assembly to which item connects.

Represents location of details.

Encloses parts which form an assembly or kit.

Indicates connecting items when these are not illustrated in their true relationship.
